

*The Department of Mechanical Engineering  
Presents:*

# **GREGORY H. JOHNSON**

**Wednesday, December 18  
4 - 5:30 PM  
Davis Auditorium**

Retired U.S. Air Force Colonel and former NASA Astronaut Gregory H. Johnson has retained various instructor pilot positions. He was deployed to Saudi Arabia on 61 combat missions between 1990 and 1992 and has flown and tested aircrafts at the Edwards Air Force Base since 1994. As an Engineer, Johnson redesigned cockpit displays and tested External Tank (ET) foam impact, ultimately achieving positions as Chief of Astronaut Safety Branch, Capsule Communicator and Lead Robotic Arm operator during the penultimate mission of NASA's Space Shuttle Program.

Hosted by Dr. Michael Massimino (SEAS '84)  
Astronaut & SEAS Visiting Professor
