Supercharge your Searching

**Mechanical Engineering Information Resources**

from Columbia Libraries

Danianne Mizzy  
Columbia University

This seminar will feature the best information resources for mechanical engineering, methods to improve the precision and recall of your searches, and introduce tools to organize your PDFs and citations. Please bring your laptop if you would like to follow along.

- Compendex and INSPEC (premier engineering databases)
- Scopus (How to conduct cited reference searching)
- PubMed (focus your search using advanced features)
- Funding Sources (Use SPIN & SMARTS to get funding alerts)
- Alerts & Citation Management Software

Danianne Mizzy is the Engineering Librarian for Columbia University Libraries. Previous appointments include serving as the Library Director for The Academy of Natural Sciences and Assistant Head of the Engineering Library at the University of Pennsylvania. She holds the MLS from University of Pittsburgh, the MFA from Yale University and the AB from Brown University.
