

**Mechanical
Engineering**

SEMINAR

Research Topics in Mechanical Engineering

**Presented by:
SEAS, Dept of Mechanical Engineering Faculty**

This Seminar is an introduction to the various research topics which are of current interest in the Mechanical Engineering Department at Columbia University. All graduate and undergraduate students in Mechanical Engineering are invited to attend.

Topics to be discussed:

- MEMS and Nanotechnology
- Biological Engineering and Biotechnology
- Energy, Fluid Mechanics, and Heat/Mass Transfer
- Control, Design, and Manufacturing
- Biomechanics and Mechanics of Materials

FRIDAY, Sept 12, 2008

11:00 am Seminar in 227 Mudd

12:30 pm Lunch in ME Lobby
